

FEEDTECH
FEEDING SYSTEMS

FLATSON *INDIVIDUAL-FEEDER* **for herringbone dairies**

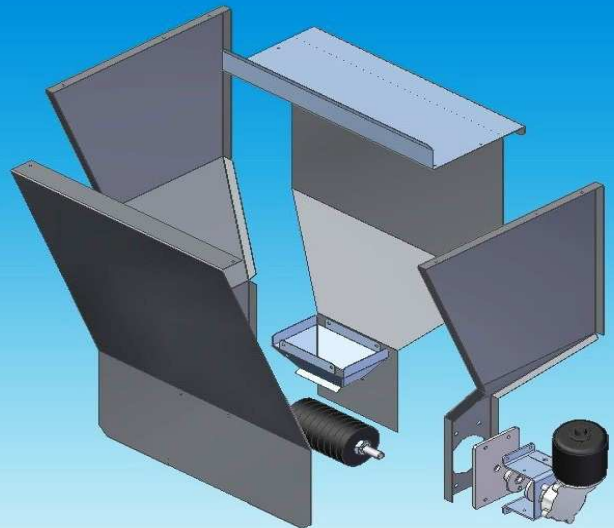

Sold as an individual feeding system, the Flatson *INDIVIDUAL-FEED FEEDER* Feeding System offers all the features of the Flatson Feeding System together with the advantage of being able to individually control each feeder.

The Flatson *INDIVIDUAL FEEDER* system now makes electronic individual feeding in the Herringbone dairy a reality.

Features include:

- High rations for performers
- Low rations for better drying off
- Blanket feed - Option
- Robust design to suit the dairy environment
- Interact with other Herd Management Systems.
- High Torque 24v DC Motors with park.
- Flow rate pellets-1min/kilo, high speed
- Flow rate pellets-80 secs/kilo, slow speed
- Flow rate Crushed Wheat-40 seconds/kilo, high speed.
- Flow rate Crushed Wheat-55 secs/kilo, low speed.
