**FEEDING SYSTEMS**

## **FLATSON *\*INDIVIDUAL-FEED CHUTE\****

**For existing Flatsons in herringbone dairies**

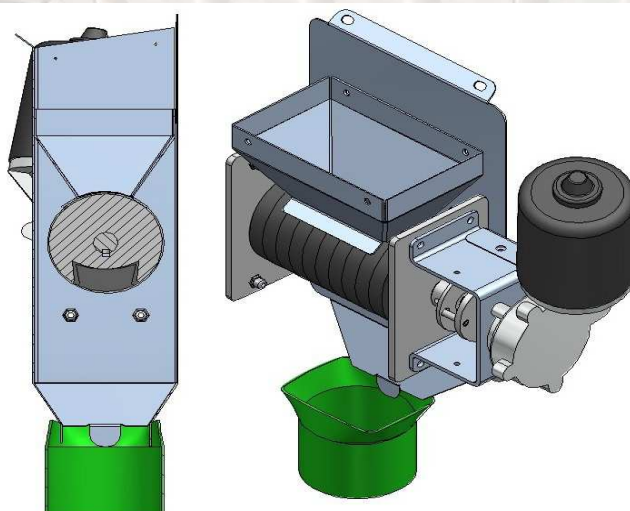

Sold as an individual feeding system, the Flatson *\*INDIVIDUAL-FEED CHUTE\** Feeding System offers all the features of the Flatson Feeding System together with the advantage of being able to individually control each feeder.

The *\*INDIVIDUAL-FEED CHUTE\** is also available in kit form allowing simple retro-fitting to any existing Flatson Feeding System.

The Flatson *\*INDIVIDUAL FEED CHUTE\** system now makes electronic individual feeding in the Herringbone dairy a reality.

**Features include:**

- High rations for performers
- Low rations for better drying off
- Blanket feed - Option
- Robust design to suit the dairy environment
- Interact with other Herd Management Systems
- High Torque 24v DC Motors with park
- Flow rate pellets-1min/kilo, high speed
- Flow rate pellets-80 secs/kilo, slow speed
- Flow rate Crushed Wheat-40 secs/kilo @ high speed.
- Flow rate crushed wheat-55 secs/kilo @ slow speed.
